

## **Peace, Love, and Understanding**

Mixed Media, 18 X 24 inches

C. Robin Janning

Making art is about the acknowledgement of holiness—the mystery, the spirit, the unseen—present in each moment. It is the transformation of thought or emotion—an opportunity for growth. It is active participation in the reality of Spirit's presence—the gathering and reflecting of each thing. As such, art documents both the mile and the milestone of life always pulled by Spirit.

“Peace, Love, and Understanding” is about the unity of our efforts to make a world. As mixed-media art, it reflects both loss and gain; however; the ground of canvas and the animating spirit of life brings harmony.

As an artist, my mission is to provide a place for the eye and the heart to find beauty. I believe that such beauty can both hold and transmit grace.
