

Miracle Healings
"The Life of Paul" episode 31
Acts 19:11-12

What about miracle healings? Are they still possible? There are two opposite views. On one team are the folks who say: "The age of miracles is over." On the other team are the folks who say: "We are living in an age of supernatural healing, if we just have the faith to believe it and receive it." I've played on both teams.
